

why is my Thetford refrigerator icing up?

11 tips to prevent icing up

- 1 Reduce the number of openings per day
- 2 Keep the openings as short as possible
- 3 Check if the door is completely closed after opening
- 4 Don't overfill the fridge

- 5 Use containers on products which can dry out
- 6 Clean up spillage inside the fridge immediately
- 7 Let hot food cool down before refrigerating

- 8 Manual defrost, if needed, every 3 weeks
- 9 Keep the interior of the RV as dry as possible
- 10 Select a lower cooling level
- 11 Check that the gasket is not damaged or dried out
